APPENDIX T

MUNICIPAL WATER LAW ATTACHMENTS (MWL)

This Page Intentionally Blank

Attachment 2: Municipal Water Law Water System Plan/Small Water System Management Program General Approval Checklist

For each element, please identify where in your Water System Plan (WSP) or Small Water System Management Program (SWSMP) submittal the requirements of the Municipal Water Law identified in the column labeled "Element" are addressed.

The "Application" column identifies the type of plan (WSP or SWSMP) and the size of system the element applies to.

Application	Element	Addressed in plan on pages indicated	Documentation Attached				
Water rights and	Water rights and system capacity						
WSP and SWSMP All size systems	The water rights self-assessment you have included in your WSP and SWSMP must be complete and must adequately reflect your water right status. Please review your self-assessment for completeness, accuracy and consistency with your water rights. If there are factors (i.e. supplemental, seasonal, etc.) to your water right that are not addressed in the self-assessment format, provide additional statements on how those factors affect your self-assessment.	Page 4-4					
WSP and SWSMP All size systems	The system capacity analysis must incorporate the water right quantity parameters (QaQi) found in your water rights self-assessment. Identify the number of connections, population served, and/or Equivalent Residential Units (ERUs) that you are currently serving and identify your current instantaneous and annual water usage. Water use demand should not exceed existing water right QaQi.	Page 2-9 App'x. M					
WSP All size systems	The system capacity analysis must incorporate the water right quantity parameters (QaQi) found in your water rights self-assessment. For a 6-year planning horizon, evaluate the number of connections, population served, and/or Equivalent Residential Units (ERUs) that you are planning on serving, utilizing historical water usage and future population projections. Water use demand projections should not exceed existing water right QaQi.	Page 2-9 App'x. M					
Service Area Delineation							
WSP and SWSMP All size systems	Provide a map and description of the water system service area. The map must delineate your retail service area (existing and future) as well any other service area (existing and future) you wish to include in your water right place of use. Provide clear differentiation between the two boundaries.	Page 1-7					
WSP and SWSMP All size systems	Provide a copy of the land use map(s) for jurisdictions served by your system.	Page 2-5

Attachment 2 2 March 2004 Revision

Application	Element	Addressed in plan on pages indicated	Documentation Attached
Duty to Serve		1	
WSP All size systems	Describe how your system responds to requests for new water service by providing:		
	The process for service requests, including timeframes		
	 How you determine that your system's capacity is adequate to provide new water service (including sufficient water rights) 	Must be	
	3. Conditions of a non-technical nature that may affect your ability to provide new water service (annexation procedures, water rights issues, local ordinances, etc.)	attached	
	4. Your system's procedures for granting or requesting extensions of time during a water service related project, and describe your procedure for handling disputes and appeals when water service requests are denied		
Local Governme	ent Consistency		
WSP or SWSMP All size systems	Consistency with applicable adopted local plans, regulations and policies must be determined prior to plan submittal. For each appropriate planning agency provide a completed "Consistency Statement Checklist" or analogous documentation.		Gold Bar Snohomish County
Watershed Coo	rdination		
WSP or SWSMP All size systems In Watershed Planning Process per RCW 90.82	If your system is located in an area developing a watershed plan per RCW 90.82, describe your efforts to coordinate with the local planning unit. We have attached a list of Water Resource Inventory Areas (WRIA) where watershed plans are currently in development along with contact names for each area.		

Attachment 2 3 March 2004 Revision

Attachment 5: Water System Plan and Small Water System Management Program Consistency Statement Checklist

Water System Name: Gold Bar Water System

This checklist is intended to ensure consistency of water system planning documents with adopted local comprehensive plans and development regulations. Each local planning jurisdiction in which the water utility provides service will review the relevant water system planning information and provide a signed consistency statement to the utility for submittal to the Department of Health. If the local planning agency will not respond, the highest authority within the utility (chair of governing body, executive director of private companies, etc.) must sign to verify consistency of the plan information.

PWS ID:

28300Y

Planning Document Title: 2013 Water System Plan Plan	an Date: <u>Fet</u>	. 21, 2014			
Local Planning Jurisdiction: City of Gold Bar, Snohomish County					
Consistency Statement (Reference Municipal Water Law Section 5 and 8, amendment to chapter 90.03.386 and chapter 43.20 RCW)	Page(s) in Planning Document (completed by utility)	Yes – No – Not Applicable			
The retail service area, and any other areas not served by a separate public water system, and land use identified in the WSP is consistent with the <i>adopted</i> comprehensive plan and adopted development regulations and policies.	Fig. 1-2	Yes			
For WSPs only: The growth projection used to forecast water demand for the retail service area is consistent with the adopted city/county's population growth projections (and commercial development projection if applicable). If a different growth projection was used, the alternative growth projection and methodology proposed is acceptable based on explanation given.	Fig. 2-2	Yes			
For WSPs only: New potential large water users (that may have a significant impact on the water system) that the city/county is aware of have been identified in the WSP.		N.A.			
For city-owned systems only: All policies regarding water service outside the corporate boundaries are included in this WSP. These policies are consistent with the adopted <i>comprehensive plan</i> and <i>development regulations</i> .	App'x. P	Yes			
Where the local planning agency is unable to sign a Consistency Statement: Provide documentation of efforts to coordinate with local agencies with a 60-day timeline for local agency to respond. Include: name of contact, date, type of effort attempted, and response from local agency.					
I certify that the above statements are true to the best of my knowledg support the conclusion that the subject-planning document is consister plans, development regulations, and other policies.					
Signature	Date				
Printed Name, Title, & Jurisdiction
