GOLD BAR CITY COUNCIL

STORMWATER OPEN HOUSE

Saturday, March 17, 2012
11:00 AM
City Hall
Gold Bar, Washington

The City would like to hear your ideas regarding the Gold Bar Stormwater Utility at an upcoming Open House on Saturday, March 17, 2012 from 11:00 a.m. to 1:00 p.m. in the City Council Chambers at City Hall, 107 5th Street, Gold Bar, WA.

The City is in the process of approving the Stormwater Utility and would like to gather input from Gold Bar citizens regarding the Utility. During the Open House, the public will have the opportunity to ask questions from staff and City Council regarding the Utility, and to gather information on how the Utility will be used. Comments received during the Open House will be included in the public record. To view a copy of the current Stormwater Utility Ordinance, visit the City's website at www.cityofgoldbar.us

The Stormwater Utility outlines the protection of the quality and quantity of water in waterways, wetlands, and flood plains from degradation. The City has six above ground stormwater retention ponds and six underground stormwater vaults. Approximately 233 catch basins are located throughout the City stormwater system conveying stormwater into the ponds and vaults. The Stormwater Utility will provide a new funding mechanism to maintain the street stormwater facilities. In addition, the Stormwater Utility Ordinance will restrict stormwater runoff from one property onto another.

For more information regarding the Open House or the Stormwater Utility, please contact Laura Kelly at 360-793-1101 or Joe Beavers at 425-238-2655.
