

NarCAN

Save A Life!

A simple spray could save a life!

Please join Amy Austin, Opioid Outreach Specialist with Snohomish County Human Services in learning how to administer Narcan (Naloxone), a nasal spray that can block the effects of an opioid overdose. This training will include information about what opiates/opioids are, how they affect our bodies, what an opioid overdose looks like and how to use the antidote to reverse an opioid overdose.

October 18th, 2018

6:00-7:30 p.m.

**Cascade Community
Church**

**14377 Fryelands Blvd. SE
Monroe, WA 98272**

Narcan will not be provided to those attending the training, though attendees will learn how to purchase it.

Training is first come first serve. Registration is not required.
